

## **EASTERN ARC MOUNTAINS CONSERVATION ENDOWMENT FUND**

**(EAMCEF)**

**MFUKO WA HIFADHI YA MILIMA YA TAO LA MASHARIKI**

# **CALL FOR PROJECT PROPOSALS FOR FUNDING BY THE EAMCEF FOR FY 2017/2018**

## **1. Introduction**

The Eastern Arc Mountains Conservation Endowment Fund (EAMCEF) is a Trust Fund that was established as a mechanism to provide long-term and reliable funding support for Community Development, Biodiversity Conservation and Applied Research Projects, which promote the biological diversity, ecological functions and sustainable use of natural resources in the Eastern Arc Mountains of Tanzania. The Eastern Arc Mountains Conservation Endowment Fund (EAMCEF) was originally conceived as a joint initiative of the Government of the United Republic of Tanzania, the Board of Trustees (BOT), the World Bank (WB) and the Global Environment Facility (GEF). EAMCEF was officially registered in Tanzania on 6<sup>th</sup> June 2001 under the Trustees' Incorporation Act (Cap. 318 R. E. 2002). Governed by a Board of Trustees, the Fund operates as a not-for-profit Trust Fund Organization with its day to day operations being run by the Endowment Fund Secretariat based in Morogoro municipality – Tanzania and headed by an Executive Director.

Major Mountain blocks of the Eastern Arc spread over fifteen districts in five regions of Tanzania namely, Tanga (East and West Usambara and Nguu Mountains), Kilimanjaro (North and South Pare Mountains), Morogoro (Uluguru, Ukaguru, Nguru, Udzungwa, Malundwe, Mahenge and Rubeho Mountains), Iringa (Udzungwa Mountains) and Dodoma (Rubeho Mountains).

## **2. Target Sites**

The first round of funding by EAMCEF started in 2006/2007 financial year for eligible projects targeting only four forest sites up to 2010/2011. Following the approval of a generous financial support by the Royal Government of Norway, the EAMCEF funding has been extended to cover nine (9) sites beginning the financial year 2011/2012, namely;

- Amani Nature Reserve (ANR) [East Usambara Mountains Block] in Korogwe and Muheza Districts.
- Nilo Nature Reserve (NNR) [East Usambara Mountains Block] in Korogwe, Mkinga and Muheza Districts.
- Kilombero Nature Reserve (KNR) [Udzungwa Mountains Block] in Kilombero and Kilolo Districts.
- Uzungwa Scarp Nature Reserve (USNR) [Udzungwa Mountains Block] in Kilombero, Kilolo and Mufindi Districts.
- Uluguru Nature Reserve (UNR) [Uluguru Mountains Block] in Mvomero & Morogoro Districts and Morogoro Municipality.
- Mkingu Nature Reserve (MkNR) [Nguru Mountains Block] in Mvomero District.
- Magamba Nature Reserve (MNR) [West Usambara Mountains Block] in Lushoto and Korogwe Districts.
- Chome Nature Reserve (CNR) [South Pare Mountains Block] in Same District.

- Udzungwa Mountains National Park (UMNP) [Udzungwa Mountains Block] in Kilombero and Kilolo Districts.

### **3. Who Can Apply**

Suitable project proposals for any of the target sites each addressing one of the specified EAMCEF thematic areas are invited for immediate submission from Government Departments (Central and Local Governments), Non-Governmental Organizations (NGOs), Community Based Organizations (CBOs), Local Communities, Research Institutions, Academic Institutions, Private Entities as well as Primary & Secondary Schools located in the target districts. Proposals submitted by eligible organizations and institutions locally based in the target districts will favourably be considered.

### **4. Thematic Areas for Funding**

- **Community Based Conservation and Development (CD)** activities for improvement of rural livelihoods of forest adjacent communities in the target sites.
- **Applied Biodiversity and Climate Change Research (RS)** activities relevant to the conservation of biodiversity and livelihood improvement in the priority Eastern Arc Mountain forests.

### **5. General Principles for Project Selection**

The over-riding principle governing selection of any project for funding by the EAMCEF is that, the project activity must result in some demonstrable (direct or indirect) benefit to conservation of biodiversity in the Eastern Arc Mountains, especially in the designated target areas. A secondary principle, which should influence project funding, is that, such funding should be complementary to other conservation and/or development activities in the target area. That is, Endowment Fund monies are not intended to substitute for funds, which are already available.

Other, more specific principles, which will guide project selection include:

- The extent to which the proposed activity is in line with existing forest management plans and priorities;
- The extent to which the proposed activity will contribute to improved management of forest resources of the selected target sites;
- The extent to which the proposed activity can show replicability or demonstration for similar activities elsewhere in the Fund's target areas or the Eastern Arc Mountains, in general;
- Demonstrable positive impact on the conservation of the Eastern Arc Mountain forests (e.g. by reducing resource demands on those forests);
- Social soundness (e.g. representation, degree of community involvement in activity identification, development and implementation);
- Environmental soundness, especially with regard to the protection of biological diversity and overall impacts on the protected areas and other essential resources;
- The extent to which the protection of the environment and natural resources will contribute to the reduction of poverty or to income generating possibilities;

**(a) Community Based Conservation and Development (CD) projects** will be further guided by the following criteria:

- The degree to which the project will provide for and/or will lead to community management of the local forest resources;
- The importance of the area's conservation value to the priority protective forests;

- The degree of sustainability and viability of the proposed activity as measured by such indicators as:
  - Adequacy of management;
  - Operational feasibility;
  - Market potential;
  - Financial soundness;
  - Level of local contribution and commitment;
  - Level of priority within the community;
  - Other factors affecting feasibility.
  
- The degree to which the community suffers economic losses or hardship as a result of forest management policies.
- The degree to which the community is organized.
- The size and economic status of the community, and the access, or lack of access, to alternative sources of funding for the proposed activity.
- Other urgent or special factors affecting conservation.

Examples of community conservation and development projects and activities, which are considered for support include:

- Ecotourism activities (e.g. campsites, bird-watching safaris, cultural activities, handicrafts, birding and guiding services, training of local guides, marketing, etc.);
- Forestry activities (e.g. on-farm forestry, woodlots, buffer zone enrichment and sustainable utilization, promotion of non timber forest products, among others);
- Education project/activities such as school extensions/additions, conservation education activities, traditional elders and school pupils environmental awareness programmes, farmer to farmer exchange visits, local community networking, etc.
- Health projects/activities such as community health insurance schemes, additions to clinics/dispensaries;
- Energy efficient or alternative energy technologies, e.g. firewood and charcoal cook stoves, solar power, biogas, etc
- Improved water access such as shallow wells, hand pumps, protected springs, other water points;
- Livestock and veterinary projects such as cattle dips, and vaccination facilities, dairy, poultry, piggery;
- Productive projects such as marketing of honey, basket making for sale to tourists, inputs needed to improve/intensify agriculture (e.g. fungicides for tomatoes).
- Agro forestry projects/activities that will encourage ecologically sound agricultural practices, e.g. manure utilization, use of terraces, home gardens, conservation agriculture, etc;
- Other projects or activities such as improved infrastructure (rural roads, bridges, water, power), income generating and welfare improvement activities which will benefit local communities and groups.

Community Conservation and Development Projects that engage pupils in targeted conservation education programmes will be given high priority for funding by the EAMCEF. Special consideration will as well be given to projects that would clearly address gender issues i.e. the way different groups will be involved and benefit from the projects results

**(b) Applied Biodiversity and Climate Change Research (RS) projects** will be selected on the basis of their relevance to the conservation of biodiversity in the Eastern Arc Mountains. Monitoring and evaluation projects, baseline assessments, feasibility studies, socio-economic research, valuation of ecological services (e.g PES for water, carbon, biodiversity, etc) and areas that are least studied in the priority sites will be rated very highly. Of secondary importance in selecting

research projects will be their contribution toward relieving pressure on the protected areas (e.g. providing alternative sources for forest products, providing efficient resource use technologies, etc.).

Research proposals on cost benefit analysis for EAMCEF limiting its support to few large size projects versus the current scenario of supporting many small size projects in the Eastern Arc Mountains will highly be considered. Proposals on undertaking results and impacts assessment for the previous projects supported by the EAMCEF in its target sites will be given priority for funding consideration. The EAMCEF will as well consider funding well-developed proposals for forest management and conservation planning, amongst other strategic aspects.

## **6. Other Useful Hints for Proposal Preparation**

### **6.1 Types of Grants Available**

EAMCEF will provide three types of grants as part of its overall programme efforts:

**(i) Micro – Grants (*Amounts not exceeding Tshs. 3.5 million*)**

EAMCEF will provide a significant amount of its available resources for micro grants to support small-scale efforts within each of the two Thematic Areas described above. Micro-grants can also be provided to conduct feasibility studies and analyses. Renewed funding of micro - grant projects may be requested only under special cases otherwise the funding is done once. The maximum award amount will not exceed Tshs. 3.5 million. The Project's duration will normally be six months, but may go up to one year.

**(ii) Single Year or Discrete Project Grants  
(*Amounts exceeding Tshs. 3.5 million and up to Tshs. 35 million*)**

EAMCEF will support discrete, one-time projects whose project life will generally not extend more than 18 months within the two Thematic Areas. Generally projects will not exceed Tshs. 35 million and will most likely average between Tshs.10 million and Tshs. 20 million.

**(iii) Multi-Year Programme Grants  
(*Amounts exceeding Tshs. 3.5 million and up to Tshs. 35 million per year*)**

EAMCEF will provide multi-year funding for projects, or programmes, that will require several years to yield results or which require multiple year funding to ensure sustainability and achievement of objectives. As with single year projects EAMCEF will set a maximum of up to Tshs.35 million per year for multi-year projects.

### **6.2 Application Deadline**

All carefully thought and well written proposals should be submitted and reach the Executive Director before 30<sup>th</sup> November 2016. Project proposals submitted after the application deadline will not be considered for funding by the EAMCEF during the concerned Financial Year

### **6.3 Linkage to District and Management Planning**

Non research community development and conservation projects will usually be funded as elements of Strategic Plans of the concerned districts and management plans of the concerned forests, that is, project proposals must comply with development priorities of the target districts and management plans of the target forests.

#### 6.4 Project Proposal Content

Each Project Proposal should not exceed ten (10) pages (excluding annexes and cover sheet) and should contain sufficient relevant details on each of the following items:-

(i) **Format for Micro-Grant Project Proposals**

1. Date of Application: \_\_\_\_\_
2. Project No: \_\_\_\_\_ (To be assigned by EAMCEF)
3. Proposed Project Location (Villages, Wards, District(s) and Region(s)): \_\_\_\_\_
4. Target/Focal Forest Site: \_\_\_\_\_
5. Description of Applying Entity:
  - (i) Name and Address: \_\_\_\_\_
  - (ii) Legal Status: \_\_\_\_\_
  - (iii) Year Created: \_\_\_\_\_
6. Name, qualifications and title of responsible person  
(if research include name of advisor/supervisor): \_\_\_\_\_
7. Title of Project Proposal: \_\_\_\_\_
8. Proposal Thematic Area: \_\_\_\_\_
9. Project Objectives and Performance Measures: \_\_\_\_\_
10. Planned Activities (with physical, measurable targets): \_\_\_\_\_
11. Justification and Rationale for the Proposal (Indicate how your project will help contribute to the conservation of the target forest site): \_\_\_\_\_
12. Anticipated Beneficiaries from the Proposal: \_\_\_\_\_
13. Brief Description of the expected outputs and deliverables of the Project: \_\_\_\_\_
14. Status of the Proposed Activity (e.g., has work already commenced, is the Proposed Activity being continued, or is it building upon previous work?): \_\_\_\_\_
15. How will you Implement the Proposed Activity?: \_\_\_\_\_
16. Time, Duration and Implementation Schedule/Plan: \_\_\_\_\_

17. Total Budget for the Project (with breakdown into components) and include any in-kind contributions and their value:

| Item (Activity) | Amount of Units Required | Unit Cost (Tshs.) | Total Cost (Tshs) |
|-----------------|--------------------------|-------------------|-------------------|
| 1.              |                          |                   |                   |
| 2.              |                          |                   |                   |
| 3.              |                          |                   |                   |
| 4.              |                          |                   |                   |
| 5.              |                          |                   |                   |
| 6.              |                          |                   |                   |
| 7.              |                          |                   |                   |
| 8.              |                          |                   |                   |
| 9.              |                          |                   |                   |
|                 | Total                    |                   |                   |
|                 | Requested from EAMCEF    |                   |                   |
|                 | Provided by Others       |                   |                   |
|                 | In-Kind                  |                   |                   |

Indicate the sources of funds provided by others below: \_\_\_\_\_

18. Comments and Recommendations by the Ward Executive Officer(s):

Name: \_\_\_\_\_ Official Stamp: \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

19. Comments and Recommendations by the District Executive Director:

Name: \_\_\_\_\_ Official Stamp: \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

20. Comments and Recommendations by the Head of Institution responsible for the Target Forest Site:

Name: \_\_\_\_\_ Title: \_\_\_\_\_ Official Stamp: \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

21. Comments and Recommendations by the Head of Institution applying for funding:

Name: \_\_\_\_\_ Title: \_\_\_\_\_ Official Stamp: \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**(ii) Project Proposal Format for Single and Multi-year Grants**

**1. Cover Sheet**

|   |  |  |
|---|--|--|
| Project Title:<br>Project Number: (To be assigned by EAMCEF)  |  | Date:  |
| Applicant /Organization Name:   | Name, Qualifications and Title of Responsible Person(s) and Address:         | Phone:   |
|   |  | Fax:   |
|   |  | Email:   |
| Legal Structure/Type of Organization (Attach copy of registration certificate for NGOs and CBOs):                 |  | Year that Organization Created:  |
| Project Location: Target Forest(s), Region(s), District(s), Wards, Villages, etc.                                 |  | Mode of Project Implementation and Information about collaborators (if any):     |
| Proposal Thematic Area:   |  |  |
| Project Grant Type:   |  |  |
| List Purpose and objectives of project/research and expected outcomes (100 words or less):                        |  | Number of Project Beneficiaries by Type, Category and Gender:                    |
| <ul style="list-style-type: none"> <li>• Purpose:</li> <li>• Objectives:</li> <li>• Expected Outcomes:</li> </ul> |  | Project status: New Proposal/ Re-submission of Revised Proposal/Ongoing Project: |
| Planned Activities and Measurable Targets:  |  | Project Number and Date of approval (if ongoing Project):                        |
| Expected Outputs and Deliverables:  |  | Main reasons for continuation of the Project (if ongoing):                       |
| Total Project Cost (Tshs.):   | Total Amount Requested from EAMCEF (Tshs.):                                  | List Other contributions including in-kind (Tshs.):                              |
| Length of Project Duration in months, proposed start and end months and years:                                    | Amount Requested from EAMCEF for the coming Financial Year (FY .....): Tshs. | List Project Merits , Rationale and Justification:                               |

**2. Recommendations by Responsible Institutions**

**(a) Comments and Recommendations by Regional Administration and Local Governments for the Target Forest Site (CD Projects only):**

(i) District Executive Director Comments and Recommendations:

\_\_\_\_\_

Name: \_\_\_\_\_ Official Stamp: \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

(ii) Regional Administrative Secretary Comments and Recommendations:

\_\_\_\_\_

\_\_\_\_\_

Name: \_\_\_\_\_ Official Stamp: \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**(b) Comments and Recommendations by Head of Applying Entity/Institution (RS Projects only):**

\_\_\_\_\_

\_\_\_\_\_

Name: \_\_\_\_\_ Title: \_\_\_\_\_ Official Stamp: \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

### **3. Main Text**

#### **I. Project Summary**

The proposal must contain a summary of the proposed activity suitable to give out main issues to be addressed and expected outcomes, not more than one page in length. It should not be an abstract of the proposal, but rather a self-contained description of the activity that would result if the proposal was funded. The summary should clearly address the following two merit review criteria: (1) the intellectual merit/ logical approach of the proposed activity; and (2) the broader impacts resulting from the proposed activity, especially detailing how the project will contribute to the conservation of the selected forest area of the Eastern Arc Mountains. It should be informative to other persons working in the same or related fields and, in so far as possible, understandable to a scientifically or technically literate lay reader.

*Proposals that do not separately address the two merit review criteria within the one page Project Summary will be returned without review.*

#### **II. Project Purpose**

In this section one should succinctly describe the purpose of the project and how it will contribute to the overall conservation objectives of the Eastern Arc Mountains. In particular the applicant should convey the importance of the project and provide justification for EAMCEF support. It must describe the broader impacts resulting from the proposed activities, addressing one or more of the following as appropriate; (i) how the project will integrate biodiversity conservation by advancing discovery and understanding of sound approach while at the same time promoting their lessons learned, encourage training of trainers (TOT); (ii) ways in which the proposed activity will broaden the participation of under-represented groups (e.g., gender, under-privileged, geographic, etc.); (iii) how the project will enhance the biodiversity conservation, community livelihoods or research and/or education, such as facilities, instrumentation, networks, and partnerships; (iv) how the results of the project will be disseminated broadly to enhance biodiversity conservation and understanding; and (v) what are potential benefits of the proposed activity to the society at large.

#### **III. Strategic Objectives and Performance Measures**

List and discuss the project's strategic objectives. After each objective outline the relevant performance indicators that you expect to use to measure how effectively the project will meet the established objectives.

#### **IV. Methodology for Implementing the Project**

Indicate your strategy for realizing the objectives. This section allows the applicant to describe the implementation strategy that will lead to successful results of the project. With this section the applicant should provide a list of interventions and activities each with easily measurable targets, deliverables and outcomes that will be undertaken and demonstrate the timeframe for completing the project activities. For research grants, the applicant should provide a detailed research plan.

This section should provide a clear statement of the work to be undertaken and must include: (a) the period of the proposed work and expected significance; (b) relation to longer-term goals of the applicant's project; and (c) relation to the present state of knowledge in the field, to other work in progress related to the initiative. In this section the applicant should outline the general plan of work, including the broad design of activities to be undertaken, and, where appropriate, provide a clear description of methods/ interventions and plans for integrating conservation and development,

documentation, and sharing of data/information and experiences with other stakeholders in the Eastern Arc Mountains and other related research and educational institutions.

## **V. Key Success Factors**

The applicant should use this section to describe and analyze the key factors that will ensure the success of the project and how he/she will manage or ensure that these factors are in place. These factors should be analyzed in the context of the overall project and the capacity of the project implementing team.

## **VI. Description of Beneficiaries**

This section should identify project beneficiaries and how they are integrated into the overall project design. In addition, the project proposal should demonstrate how the project will integrate with local institutional structures in the specific area where the project will be implemented.

## **VII. Monitoring and Evaluation Plan**

The monitoring and evaluation plan should be provided here. This should include the systems and mechanisms in place to collect data and information to measure progress toward meeting the objectives. The applicant should provide a table listing indicators and their respective measures as well as timeframe for collecting information. Information on the current situation (baseline data) which the project intends to improve should as well be provided here.

## **VIII. Sustainability Plan**

This section should describe the sustainability of the project, indicating how the EAMCEF investment will yield long-term conservation benefits. The applicant should describe how the project will contribute to the long-term conservation objectives and assurance of financial sustainability of the efforts initiated under the project. The underlying assumptions about sustainability should as well be provided here.

## **IX. Budget**

The proposal must contain a detailed, itemized budget for each year of support requested. In the proposal the applicant should submit a summary sheet outlining the cost involved in project implementation. The budget should include the amount requested from EAMCEF, amounts provided by other sources, as well as the amount that will be provided by the applicant. In-kind contributions should also be highlighted as both an input and as part of the total cost of completing the project. If the project proposes to result in any revenue generation, that revenue should also appear in the overall cash flow for the project.

A detailed budget justification should appear in a separate annex. The annex should include a budget justification of no more than 5 pages to justify the budget numbers provided in this section. Specific categories budgeted must be consistent with the EAMCEF's cost accounting practices used in accumulating and reporting costs.

### ***Eligible Budget Items***

The following budget items can be supported by EAMCEF.

## **(a) Salaries and Wages**

### ***Policies***

As a general policy, EAMCEF recognizes that salaries of district councils and protected areas staff, faculty members, NGOs and other personnel associated directly with the project are constituted appropriately in their institutional budgets. EAMCEF will be dealing primarily with direct costs to the project implementation and other associated labour input costs. EAMCEF regards projects as one of the normal functions of an institution /faculty members at institutions of higher education. Compensation for time normally spent on the project or research within the term of appointment is deemed to be included within the budget. Grant funds may not be used to augment the total salary or rate of salary of staff in the projects or faculty members during the period covered by the term of the project agreement.

*EAMCEF will not be responsible for any employment contract the grantee will enter into with any person or institution, during the implementation of the project granted by EAMCEF.*

## **(b) Procedures for research grants**

The names of the principal investigator, faculty, and other senior personnel and the estimated number of full-time-equivalent academic-year, or calendar-year person-months for which EAMCEF funding is requested and the total amount of salaries per year must be listed. Salaries requested must be consistent with the organization's regular practices and meet EAMCEF guidelines. Compensation classified as salary payments must be requested in the salaries and wages category.

## **(c) Equipment procurement**

Equipment is defined as an item of property that has an acquisition cost of Tshs. 50,000/= or more and an expected service life of more than one year. Items of needed equipment must be listed individually by description and estimated cost, and adequately justified. Allowable items will be limited to support project implementation and research equipment and apparatus not already available for the conduct of the work. General-purpose equipment, such as a personal computer, is not eligible for support. All equipment bought by using EAMCEF grant monies will remain the property of EAMCEF and will be reflected in the EAMCEF Inventory List until the end of the project(s) where EAMCEF will decide the mode of transfer or disposal of the equipment as seen appropriate.

In some cases, EAMCEF may purchase the equipment on behalf of the beneficiary entity rather than provide funds, depending on the approved projects and specific circumstances.

## **(d) Supplies, Inputs and Other Support**

EAMCEF will provide funding to purchase supplies and project inputs required for implementation. All payments must be based on three quotations or other applicable procurement procedures. In some cases, depending on the type of materials and supplies, EAMCEF may purchase inputs rather than provide cash.

## **(e) Travel**

### **(i) General**

Travel inside Tanzania and its relation to the proposed activities must be specified and itemized by destination and cost. Funds may be requested for field work, attendance at meetings and workshops, and other travel associated with the proposed work, including subsistence. Allowances for air travels are normally not paid for by EAMCEF.

### **(ii) Foreign Travel**

*In rare and exceptional cases EAMCEF may support foreign travels*

For any proposed foreign travel, the proposal must include relevant information, including countries to be visited, dates of visit, if known, and justification for any foreign travel planned in connection with the project. A strong argument must be made to EAMCEF for it to consider the request. In most cases, foreign travel grants are not available.

### **(f) Participant Support**

This budget category refers to costs of transportation, per diem, stipends and other related costs for participants or trainees (but not employees) in connection with EAMCEF-sponsored conferences, meetings, symposia, training activities and workshops.

### **(g) Other Direct Costs**

Any cost charged to an EAMCEF grant must be reasonable and directly designated for a supported activity. The budget must identify and itemize other anticipated direct costs not included under the headings above, including materials and supplies, publication costs, computer services and consultant services.

### **(h) Indirect Costs for Agencies, NGOs and Research Institutions**

The applicable indirect cost rate(s) need to be negotiated by the grantee and EAMCEF if it exceeds 20% of the total approved budget.

### **(i) Cost Sharing**

EAMCEF require that each grantee share in the cost of projects. Proposals submitted to EAMCEF must indicate the amount of funding that will be contributed by the applicant. In some cases the funding may only include an in-kind contribution. When valuing in-kind contributions the applicant should use wage rates in effect at the programme site for the type of work provided and local cost structures for donated materials.

## **X. Annexes**

Additional information must be provided in annexes. The budget justification should be the first annex followed by Applicants' Curriculum Vitae (CV). Subsequent annexes may include any special or supplementary information to support the request for funding. Such information may include: maps, any previous studies completed, letters of support and commitment from collaborators, environmental impact statements, and other related information.

## **7. How to Apply**

Completed Project Proposals should be submitted in both soft and hard copies to the undersigned before the application deadline by hand, post or e-mail. Applications submitted by e-mail should be followed by submission of the duly signed original hard copies within the application deadline.
