Sir,
Please do your final comments on the map on the this pdf (use your pdf writer on the GIS computer)
Also Suggest if the map is going to be Folded for pocket/navigational use
or it is just a wall map (poster).
Tell us if the use will be indoor or otherwise

we need to find where to place the location diagram
and the Iringa District logo (Which Kyungu Promised to send me)
This is also important for the proper choice of color when we do printing.
I suggest that this map be laminated to avoid loss of color when used for some period or when in contact with moisture.

e-mail me at: kaijage7@yahoo.co.uk
or: info@infobridgers.com

yours sincerely

Chris A. Kaijage
